

Data in the Cloud

TSCOM – SCRUM

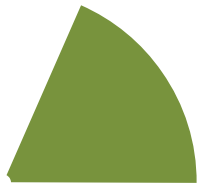

Oct. 7, 2013

**Let's talk about
Cloud.**

Why Cloud?

\$210bn

Cloud (IaaS Reseller)

CLOUD ADOPTION

considered by many to be inevitable

ACCESS

Most Cloud providers have access portals via a number of platforms and international data centers.

EFFICIENCY

Local & network storage costs are outweighing Cloud storage costs

COLLABORATION

Cloud makes it easy for collaboration from different geographies, organizations and platforms. A transfer medium.

SCALABILITY

Follows an elastic model – providing what is needed when it is needed and grows with the data.

GEBCO & CLOUD?
