

## Southern Ocean

Bathymetry data reproduced from the **GEBCO\_2014 Grid**, [www.gebco.net](http://www.gebco.net)

Imagery for land areas north of 60°S is taken from NASA's Blue Marble Next Generation data set (NASA's Earth Observatory, <http://earthobservatory.nasa.gov/Features/BlueMarble/>). South of 60°S, coastline and ice shelf limits are taken from the Scientific Committee on Antarctic Research's (SCAR) Antarctic Digital Database (ADD, [www.add.scar.org](http://www.add.scar.org)).
