Call for Expression of Interest GEBCO Symposium : MAP THE GAPS

Busan, Republic of Korea - 15 November 2017

*Hosted by the Hydrographic Society of Korea (HSK) and
the Korea Hydrographic and Oceanographic Agency (KHOA)*

The IHO/IOC Committee for the General Bathymetric Charts of the Oceans (GEBCO, www.gebco.net) is an international body undertaking global bathymetric mapping and naming of undersea features.

GEBCO Symposium, formerly known as GEBCO Bathymetric Science Day, is a forum to share, learn and collaborate with others in the ocean mapping and related communities. A day filled with discussion, presentations, posters and networking, this year's gathering will be held on Wednesday, 15 November at the CAPRI Room, Paradise Hotel, Busan, ROK.

This year, we are particularly interested in thought leadership on approaches and accomplishments to technology, challenges, innovation and bathymetric missions.

The GEBCO Symposium is an excellent venue for exchanging ideas and growing new collaborations. Please come, share your knowledge, and join an international and cross-disciplinary team engaged in exciting and fundamental work. Any contributor to the Symposium may attend [GEBCO's Technical Sub-Committee meetings](#) on Ocean Mapping (TSCOM) and Regional Undersea Mapping (SCRUM) on 13-14 November at CAPRI Room, Paradise Hotel in Busan.

Please submit a concise summary of your presentation to the symposium conveners, Timothy Kearns and Jaya Roperez [here](#). Please note that you have to [register](#) for the event. You may also email us at: symposium@gebco.net.
